20 COMMUNITY SERVICE HOURS

Venture to one of the world's most exotic and intriguing regions, the remote Bocas del Toro Islands off the coast of Panama. Shadowing doctors who travel through these rural islands setting up pop-up clinics for underserved populations, we understand the barriers to medical access for remote indigenous communities. During our time in these villages we also lend a hand on community-driven infrastructure projects to increase community health. Finishing up our meaningful service we fly through the forest canopy on ziplines, the vibrancy of life in the jungle beckons us in the calls of toucans and howler monkeys. Basking in the crystal clear waters off improbably white sand beaches, we take in the beauty of the Caribbean. After experiencing one of the world's most fascinating, and beautiful nations, we return to the U.S. with broader perspectives and a newfound passion to learn.

PROGRAM HIGHLIGHTS

- Partner with a Non-Profit Bringing Healthcare to the Indigenous People of the Remote Bocas del Toro Islands
- Surf the Waves on Panama's Stunning Caribbean Coast
